LAUNDRY BOOKING APP

Identified By:Nandana K G
Date:31/07/2026
Reported To:Rugma Ragan
Environmental Details:Windows 11

SPLASH SCREEN

Test ID	Test Description	Test Procedure	Test Data	Expected Result
LBA_SS_01	Verify splash screen displays on app launch	1. Install and launch the Laundry Booking App 2. Observe the initial screen	N/A	Splash screen with static logo image is displayed immediately on launch
LBA_SS_02	Verify splash screen logo image is correct	1. Launch the app 2. Observe the logo displayed	N/A	Correct brand logo image (as per design spec) is displayed, not blank/placeholder
LBA_SS_03	Verify splash logo is centered on screen	1. Launch the app 2. Check logo alignment on screen	N/A	Logo is horizontally and vertically centered on the splash screen
LBA_SS_04	Verify splash screen display duration	1. Launch the app 2. Start a timer when splash appears 3. Stop timer when splash screen disappears	Expected duration: 2-3 seconds	Splash screen displays for the defined duration (e.g. 2-3 seconds) and no longer
LBA_SS_05	Verify navigation after splash screen for a new user	1. Launch app with no existing session 2. Wait for splash to complete	No prior login session	App navigates automatically to Sign Up/Sign In screen
LBA_SS_06	Verify navigation after splash screen for a logged-in user	1. Launch app with an active saved session 2. Wait for splash to complete	Valid active session token	App navigates automatically to the Home screen, bypassing Sign In
LBA_SS_07	Verify splash screen behavior on slow network	1. Simulate slow 2G/3G network 2. Launch the app	Network throttled to 2G	Splash screen displays correctly without freezing; app proceeds once minimum resources load
LBA_SS_08	Verify splash screen behavior with no internet connection	1. Disable Wi-Fi and mobile data 2. Launch the app	No network connectivity	Splash screen displays; app either proceeds to login or shows an appropriate no-connectivity message afterward
LBA_SS_09	Verify splash screen in portrait orientation	1. Launch the app in portrait mode	Device orientation: Portrait	Splash screen renders correctly with proper scaling in portrait mode
LBA_SS_10	Verify splash screen in landscape orientation	1. Rotate device to landscape 2. Launch the app	Device orientation: Landscape	Splash screen renders correctly with proper scaling in landscape mode
LBA_SS_11	Verify splash screen on different screen resolutions	1. Launch app on low, medium, and high resolution devices	Devices: various DPI/resolutions	Logo and background scale proportionally without distortion on all resolutions
LBA_SS_12	Verify splash screen on tablet devices	1. Launch the app on a tablet	Device: Tablet (larger screen)	Splash screen layout adjusts correctly for tablet screen size
LBA_SS_13	Verify no user interaction is possible during splash screen	1. Launch the app 2. Attempt to tap anywhere on the splash screen	Taps at various screen coordinates	Splash screen does not respond to touch input; no navigation occurs from tapping
LBA_SS_14	Verify app does not crash during splash screen load	1. Launch the app multiple times consecutively (10 times)	Repeated launch attempts	App loads splash screen successfully each time without crashing or freezing
LBA_SS_15	Verify splash screen image quality	1. Launch the app 2. Visually inspect the logo image	N/A	Logo image is sharp, high resolution, and not pixelated or blurry
LBA_SS_16	Verify splash screen background color/theme	1. Launch the app 2. Observe background color of splash screen	N/A	Background color matches approved brand design specification
LBA_SS_17	Verify splash-to-next-screen transition animation	1. Launch the app 2. Observe transition as splash screen ends	N/A	Transition (fade/slide) to next screen is smooth without flicker or abrupt cuts
LBA_SS_18	Verify splash screen load time does not exceed threshold	1. Launch the app 2. Measure time from launch to splash completion	Max allowed threshold: 3 seconds	Splash screen and initial resource load complete within the defined threshold
LBA_SS_19	Verify splash screen appears only once per app session	1. Launch the app 2. Navigate within the app 3. Return to app from background	App running in foreground/background	Splash screen is shown only on cold launch, not when resuming from background
LBA_SS_20	Verify splash screen behavior when app is force-closed during splash	1. Launch the app 2. Force close app while splash is displaying 3. Relaunch the app	N/A	App restarts cleanly and displays splash screen again without corrupted state
LBA_SS_21	Verify splash screen app icon matches installed app icon	1. Locate app icon on device home screen 2. Compare with in-app branding	N/A	App icon on device matches the branding shown on splash screen
LBA_SS_22	Verify splash screen on Android OS devices	1. Launch the app on multiple Android OS versions	Android versions: e.g. 11, 12, 13, 14	Splash screen displays correctly and consistently across supported Android versions
LBA_SS_23	Verify splash screen on iOS devices	1. Launch the app on multiple iOS versions	iOS versions: e.g. 15, 16, 17	Splash screen displays correctly and consistently across supported iOS versions

SIGN IN

Test ID	Test Description	Test Procedure	Test Data	Expected Result
LBA_SIN_01	Verify Sign In screen UI elements	1. Navigate to Sign In screen 2. Observe all fields and buttons	N/A	Phone Number field, Password field, Sign In button, and Forgot Password link are all displayed correctly
LBA_SIN_02	Verify successful login with valid registered credentials	1. Enter registered phone number 2. Enter correct password	Phone: 9876543210, Password: Test@123	User is logged in successfully and navigated to the Home screen
LBA_SIN_03	Verify login with invalid phone number format	1. Enter an invalid phone number format 2. Enter valid password	Phone: 123abc	Validation error message is displayed: "Enter a valid phone number"
LBA_SIN_04	Verify login with unregistered phone number	1. Enter a phone number not registered in the system 2. Enter any password	Phone: 9998887777 (not registered)	Error message displayed: "Account not found" or similar
LBA_SIN_05	Verify login with incorrect password	1. Enter valid registered phone number 2. Enter incorrect password	Phone: 9876543210, Password: WrongPass1	Error message displayed: "Incorrect password"; user is not logged in
LBA_SIN_06	Verify login with empty phone number field	1. Leave phone number field blank 2. Enter valid password	Phone: (blank), Password: Test@123	Validation error: "Phone number is required"; Sign In is blocked
LBA_SIN_07	Verify login with empty password field	1. Enter valid phone number 2. Leave password field blank	Phone: 9876543210, Password: (blank)	Validation error: "Password is required"; Sign In is blocked
LBA_SIN_08	Verify login with both fields empty	1. Leave phone number and password fields blank 2. Tap Sign In	Phone: (blank), Password: (blank)	Validation errors displayed for both fields; Sign In is blocked
LBA_SIN_09	Verify phone number field accepts numeric input only	1. Attempt to enter alphabetic/special characters in phone number field	Input: abc!@#	Non-numeric characters are rejected or not accepted by the field
LBA_SIN_10	Verify phone number field maximum length validation	1. Enter a phone number exceeding the valid digit length	Phone: 98765432109 9	Field restricts input or displays a validation error for exceeding max length
LBA_SIN_11	Verify phone number field minimum length validation	1. Enter a phone number with fewer digits than required	Phone: 98765	Validation error: "Enter a valid phone number"
LBA_SIN_12	Verify password field masks entered characters	1. Enter password in password field 2. Observe field display	Password: Test@123	Entered characters are masked with dots/asterisks by default
LBA_SIN_13	Verify show/hide password toggle functionality	1. Enter password2. Tap the show/hide icon	Password: Test@123	Password toggles between masked and plain text view correctly
LBA_SIN_14	Verify appropriate error message on incorrect credentials	1. Enter valid phone number with wrong password	Phone: 9876543210, Password: Wrong@1	Clear, user-friendly error message is shown without revealing which field is incorrect
LBA_SIN_15	Verify account lockout after multiple failed login attempts	1. Enter incorrect password 5 consecutive times for the same account	Password attempts: 5 incorrect tries	Account is temporarily locked and a lockout message is displayed
LBA_SIN_16	Verify "Forgot Password" link navigation	1. Tap on "Forgot Password" link on Sign In screen	N/A	User is navigated to the Forgot Password screen
LBA_SIN_17	Verify OTP is sent to registered mobile number on Forgot Password	1. Navigate to Forgot Password 2. Enter registered phone number 3. Submit request	Phone: 9876543210 (registered)	OTP is sent to the registered mobile number and OTP entry screen is displayed
LBA_SIN_18	Verify OTP field accepts only numeric input of defined length	1. On OTP screen, attempt to enter alphabetic characters and check length restriction	OTP input: abcd / 123456	Field accepts only numeric digits up to the defined OTP length (e.g. 6 digits)
LBA_SIN_19	Verify "Resend OTP" option functionality	1. On OTP screen, wait for timer to elapse 2. Tap "Resend OTP"	N/A	New OTP is sent to the registered mobile number and confirmation is shown
LBA_SIN_20	Verify OTP expiry after defined time limit	1. Request OTP 2. Wait beyond expiry time (e.g. 5 minutes) 3. Enter the expired OTP	OTP requested and used after 5+ minutes	Error message displayed: "OTP expired, please request a new one"
LBA_SIN_21	Verify error message on entering invalid OTP	1. Enter an incorrect OTP on the verification screen 2. Submit	OTP: 000000 (invalid)	Error message displayed: "Invalid OTP, please try again"
LBA_SIN_22	Verify successful login navigates user to Home screen	1. Complete valid login 2. Observe post-login screen	Valid phone and password	User lands on the Home screen with relevant dashboard/booking options visible
LBA_SIN_23	Verify login session persists after app restart when Remember Me is enabled	1. Log in successfully with Remember Me/session enabled 2. Close and reopen the app	Valid login credentials	User remains logged in and is taken directly to Home screen without re-entering credentials
LBA_SIN_24	Verify login with special characters in password field	1. Enter a password containing valid special characters	Password: P@ssw#123!	Password with valid special characters is accepted and processed normally
LBA_SIN_25	Verify login screen handles network failure gracefully	1. Disable network connectivity 2. Enter valid credentials	No internet connection	Appropriate error message is shown: "No internet connection, please try again"

SIGN UP

Test ID	Test Description	Test Procedure	Test Data	Expected Result
LBA_SUP_01	Verify Sign Up screen UI elements	1. Navigate to Sign Up screen 2. Observe all fields and buttons	N/A	Name, Mobile Number, Password fields and "Sign Up" button are displayed correctly
LBA_SUP_02	Verify successful sign up with valid details	1. Enter valid name, mobile number, and strong password	Name: Chandish, Phone: 9876543210, Password: Test@123	OTP verification screen is displayed and account creation proceeds
LBA_SUP_03	Verify Name field mandatory validation	1. Leave Name field blank 2. Fill other fields	Name: (blank)	Validation error: "Name is required"
LBA_SUP_04	Verify Name field rejects numeric/special characters	1. Enter numbers/special characters in Name field	Name: Hardik123!@#	Validation error is displayed, or invalid characters are not accepted
LBA_SUP_05	Verify Name field maximum length validation	1. Enter a name exceeding the maximum allowed characters	Name: 100+ character string	Field restricts input or shows a max length validation error
LBA_SUP_06	Verify Mobile Number field mandatory validation	1. Leave mobile number field blank	Mobile Number: (blank)	Validation error: "Mobile number is required"
LBA_SUP_07	Verify Mobile Number field rejects invalid format	1. Enter an invalid mobile number format	Mobile: 12345	Validation error: "Enter a valid mobile number"
LBA_SUP_08	Verify Sign Up with already registered mobile number	1. Enter a mobile number that is already registered	Mobile: 9876543210 (existing account)	Error message: "Mobile number already registered, please sign in"
LBA_SUP_09	Verify Mobile Number field accepts numeric input only	1. Attempt to enter alphabetic/special characters in mobile field	Input: abc@123	Non-numeric characters are rejected by the field
LBA_SUP_10	Verify Mobile Number field length validation	1. Enter mobile number with incorrect digit count	Mobile: 98765	Validation error displayed for incorrect length
LBA_SUP_11	Verify Password field mandatory validation	1. Leave password field blank	Password: (blank)	Validation error: "Password is required"
LBA_SUP_12	Verify Password strength validation rejects weak password	1. Enter a weak password (e.g. only lowercase, less than 5 characters)	Password: abc	Validation error: "Password must contain at least 8 characters, a number and a special character"
LBA_SUP_13	Verify Password field masks entered characters	1. Enter password 2. Observe display	Password: Test@123	Characters are masked by default
LBA_SUP_14	Verify show/hide password toggle on Sign Up screen	1. Enter password 2. Tap show/hide icon	Password: Test@123	Password visibility toggles correctly between masked and plain text
LBA_SUP_15	Verify Sign Up button remains disabled until mandatory fields are filled	1. Leave one or more mandatory fields empty 2. Observe Sign Up button state	Partial form data	Sign Up button remains disabled/inactive until all mandatory fields are valid
LBA_SUP_16	Verify Sign Up button triggers OTP verification flow	1. Fill all valid mandatory details	Valid Name, Mobile, Password	OTP verification screen is displayed for mobile number confirmation
LBA_SUP_17	Verify OTP is sent to the mobile number entered during sign up	1. Complete sign up form	Mobile: 9876543210	OTP is delivered via SMS to the entered mobile number
LBA_SUP_18	Verify successful OTP verification completes registration	1. Enter the correct OTP received 2. Tap Verify	Valid OTP	Account is created successfully and user proceeds to next screen (profile creation/home)
LBA_SUP_19	Verify incorrect OTP entry displays error	1. Enter an incorrect OTP 2. Tap Verify	OTP: 000000 (invalid)	Error message displayed: "Invalid OTP, please try again"
LBA_SUP_20	Verify Resend OTP functionality on sign up	1. Wait for the resend timer to elapse 2. Tap "Resend OTP"	N/A	New OTP is sent and confirmation message is displayed
LBA_SUP_21	Verify OTP expiry during sign up	1. Request OTP 2. Wait beyond the expiry window 3. Attempt verification	OTP used after expiry time	Error message: "OTP expired, please request a new one"
LBA_SUP_22	Verify successful sign up navigates to profile creation/home screen	1. Complete sign up and OTP verification	Valid sign up flow completed	User is navigated to Create/Update Profile screen or Home screen as per flow
LBA_SUP_23	Verify duplicate sign up attempt using the same mobile number twice in one session	1. Attempt to sign up twice with same mobile number without completing OTP the first time	Mobile: 9876543210 used twice	System handles gracefully, either resending OTP for pending verification or showing appropriate error
LBA_SUP_24	Verify Sign Up with special characters or emoji in Name field	1. Enter emojis or unsupported special characters in Name field	Name: Ishan	Validation error is shown, or unsupported characters are stripped/rejected
LBA_SUP_25	Verify Sign Up screen handles network failure gracefully	1. Disable network connectivity 2. Fill valid sign up details	No internet connection	Appropriate error message shown: "No internet connection, please try again"

CREATE/UPDATE/MANAGE USER PROFILE

Test ID	Test Description	Test Procedure	Test Data	Expected Result
LBA_CUP_01	Verify Create/Manage Profile screen UI elements	1. Navigate to profile screen after sign up/login 2. Observe all fields and buttons	N/A	Name, City, Location, Upload Profile Picture, Address, Language Preference, and Submit button are all displayed
LBA_CUP_02	Verify Name field mandatory validation on profile screen	1. Leave Name field blank	Name: (blank)	Validation error: "Name is required"
LBA_CUP_03	Verify Name field accepts only valid alphabetic input	1. Enter numeric/special characters in Name field	Name: Arnay123	Validation error displayed, or invalid characters are rejected
LBA_CUP_04	Verify City field mandatory validation	1. Leave City field blank	City: (blank)	Validation error: "City is required"
LBA_CUP_05	Verify City field selection from list/dropdown	1. Tap City field 2. Select a city from the provided list	City: Dubai	Selected city is correctly populated in the field
LBA_CUP_06	Verify Location field mandatory validation	1. Leave Location field blank	Location: (blank)	Validation error: "Location is required"
LBA_CUP_07	Verify Location auto-fetch via device GPS	1. Tap "Use current location" option 2. Grant location permission	Device GPS enabled	Current location is fetched and auto-populated accurately in the Location field
LBA_CUP_08	Verify Location manual entry	1. Manually type/search a location in the Location field	Location: Downtown, Dubai	Entered location is accepted and saved correctly
LBA_CUP_09	Verify Upload Profile Picture via gallery	1. Tap Upload Profile Picture 2. Select "Choose from Gallery" 3. Select an image	Valid image file (JPG/PNG)	Selected image is uploaded and displayed as the profile picture
LBA_CUP_10	Verify Upload Profile Picture via camera	1. Tap Upload Profile Picture 2. Select "Take Photo" 3. Capture an image	Camera capture	Captured image is uploaded and displayed as the profile picture
LBA_CUP_11	Verify Upload Profile Picture rejects unsupported file formats	1. Attempt to upload a file in an unsupported format	File: document.pdf	Error message displayed: "Unsupported file format, please upload JPG/PNG"
LBA_CUP_12	Verify Upload Profile Picture rejects files exceeding max size limit	1. Attempt to upload an image exceeding the size limit	Image size: 15MB (limit: 5MB)	Error message displayed: "File size exceeds maximum limit"
LBA_CUP_13	Verify Address field mandatory validation	1. Leave Address field blank 2. Tap Submit	Address: (blank)	Validation error: "Address is required"
LBA_CUP_14	Verify Address field character limit	1. Enter address text exceeding maximum allowed characters	Address: 500+ character string	Field restricts input or shows a max length validation error
LBA_CUP_15	Verify Submit button remains disabled until mandatory fields are completed	1. Leave one or more mandatory fields empty 2. Observe Submit button state	Partial profile data	Submit button remains disabled/inactive until all mandatory fields are valid
LBA_CUP_16	Verify Submit button saves profile successfully with valid data	1. Fill all mandatory fields correctly 2. Tap Submit	Valid Name, City, Location, Address	Profile is saved successfully and confirmation message/navigation is shown
LBA_CUP_17	Verify Language Preference selection - English	1. Navigate to Language Preference option 2. Select "English"	Language: English	English is selected and applied as the app's display language
LBA_CUP_18	Verify Language Preference selection - Arabic	1. Navigate to Language Preference option 2. Select "Arabic"	Language: Arabic	Arabic is selected and applied as the app's display language
LBA_CUP_19	Verify Language Preference field is optional	1. Skip Language Preference selection 2. Tap Submit	Language: not selected	Profile is saved successfully without requiring a language selection
LBA_CUP_20	Verify UI switches to right-to-left (RTL) layout when Arabic is selected	1. Select Arabic as Language Preference 2. Observe screen layout	Language: Arabic	App UI elements re-align to RTL layout consistent with Arabic language selection
LBA_CUP_21	Verify updating existing profile - Name change	1. Navigate to existing profile 2. Edit Name field	New Name: umar Akbar	Updated name is saved and reflected across the app
LBA_CUP_22	Verify updating existing profile - Address change	1. Navigate to existing profile 2. Edit Address field	New Address: Marina Walk, Dubai	Updated address is saved and reflected in future bookings

LBA_CUP_23	Verify updating existing profile - Profile Picture change	1. Navigate to existing profile 2. Tap Upload Profile Picture 3. Select a new image	New profile image	New profile picture replaces the old one and is saved successfully		
LBA_CUP_24	Verify Cancelback navigation discards unsaved profile changes	1. Edit one or more profile fields 2. Tap Back/Cancel without saving	Modified but unsubmitted data	Changes are discarded; original profile data remains unchanged		
LBA_CUP_25	Verify profile data persists after app restart	1. Save profile successfully 2. Force-close the app 3. Navigate to profile screen	Saved profile data	All previously saved profile details are displayed correctly after restart		
LBA_CUP_26	Verify profile screen handles network failure during submission	1. Disable network connectivity 2. Fill valid profile details	No internet connection	Error message displayed: "No internet connection, please try again"; data is not lost from the form		

LAUNDRY BOOKING

Test ID	Test Description	Test Procedure	Test Data	Expected Result		
LBA_LB_01	Verify Laundry Booking screen UI elements	1. Navigate to Laundry Booking screen 2. Observe all fields and options	N/A	Item categories, quantity field, location, schedule, notes, payment, and confirmation sections are displayed correctly		
LBA_LB_02	Verify list of item categories is displayed correctly	1. Open Laundry Booking screen 2. Observe item list	N/A	Item categories such as Shirt, Trouser, Dress, etc. are listed clearly with icons/labels		
LBA_LB_03	Verify user can select a single item category	1. Tap on one item category (e.g. Shirt)	Item: Shirt	Selected item is highlighted/marked as selected		
LBA_LB_04	Verify user can select multiple item categories	1. Tap on multiple item categories (e.g. Shirt, Trouser, Dress)	Items: Shirt, Trouser, Dress	All selected items are highlighted and included in the booking		
LBA_LB_05	Verify user can deselect a previously selected item category	1. Select an item 2. Tap the same item again to deselect	Item: Shirt (toggle off)	Item is removed from the selected list and no longer highlighted		
LBA_LB_06	Verify item quantity field accepts numeric input	1. Select an item 2. Enter a numeric value in the quantity field	Quantity: 3	Quantity value is accepted and displayed correctly		
LBA_LB_07	Verify item quantity field rejects zero pieces	1. Select an item 2. Enter 0 in quantity field 3. Attempt to proceed	Quantity: 0	Validation error displayed: "Quantity must be at least 1"		
LBA_LB_08	Verify item quantity field rejects negative values	1. Attempt to enter a negative number in quantity field	Quantity: -2	Field rejects negative input or displays validation error		
LBA_LB_09	Verify item quantity field enforces a maximum limit	1. Enter a quantity exceeding the maximum allowed pieces per item	Quantity: 999	Validation error displayed, or input is capped at the defined maximum limit		
LBA_LB_10	Verify "Place a Request" button is disabled until item and quantity are selected	1. Leave item selection and/or quantity empty 2. Observe button state	No item selected	"Place a Request" button remains disabled/inactive		
LBA_LB_11	Verify "Place a Request" button proceeds when valid item and quantity are selected	1. Select item(s) and enter valid quantity 2. Tap "Place a Request"	Item: Shirt, Quantity: 2	User is navigated to the next step (location selection)		
LBA_LB_12	Verify system displays the user's saved/default address	1. Proceed to location step	Saved address: "Home - Marina Walk"	Saved address is displayed correctly as the default pickup location		
LBA_LB_13	Verify user can choose a new pickup location	1. Tap "Choose New Location" 2. Select an alternate address	New location: Office - Business Bay	New location is selected and set as the pickup address for this booking		
LBA_LB_14	Verify new location search functionality	1. Tap "Choose New Location" 2. Type an address in the search field	Search text: "Downtown Dubai"	Matching address results are displayed based on the search text		
LBA_LB_15	Verify new location can be selected via map pin drop	1. Tap "Choose New Location" 2. Drag/drop the map pin to a desired location	Map pin coordinates	Selected pin location is captured and displayed as the pickup address		
LBA_LB_16	Verify option to save newly entered location for future bookings	1. Enter a new location 2. Enable "Save this address" option	New address with save toggle enabled	New address is saved to the user's profile for future use		
LBA_LB_17	Verify location field is mandatory before proceeding to schedule	1. Leave location unselected 2. Attempt to proceed to schedule step	Location: (not selected)	Validation error or navigation is blocked until a location is selected		
LBA_LB_18	Verify Service Schedule screen displays available collection time slots	1. Navigate to Service Schedule step 2. Observe collection time slots	N/A	List of available collection time slots is displayed clearly		
LBA_LB_19	Verify Service Schedule screen displays available delivery time slots	1. Navigate to Service Schedule step 2. Observe delivery time slots	N/A	List of available delivery time slots is displayed clearly		
LBA_LB_20	Verify user can select a collection date	1. Tap on the collection date field 2. Select a valid future date	Collection date: Tomorrow	Selected collection date is set correctly		
LBA_LB_21	Verify user can select a collection time slot	1. Select a collection date 2. Choose an available time slot	Time slot: 10:00 AM - 12:00 PM	Selected time slot is applied to the booking		
LBA_LB_22	Verify delivery date must be after collection date	1. Select a delivery date prior to or same as collection date	Collection: Day 1, Delivery: Day 1 (same/earlier)	Validation error displayed: "Delivery date must be after collection date"		
LBA_LB_23	Verify user can select a delivery time slot	1. Select a valid delivery date 2. Choose an available delivery time slot	Time slot: 4:00 PM - 6:00 PM	Selected delivery time slot is applied to the booking		
LBA_LB_24	Verify selection of a past date is restricted	1. Attempt to select a past date for collection or delivery	Date: previous calendar day	Past dates are disabled/greyed out and cannot be selected		
LBA_LB_25	Verify delivery time cannot be earlier than collection time on the same day	1. Select collection and delivery on the same date 2. Set delivery time earlier than collection time	Collection: 5:00 PM, Delivery: 2:00 PM (same day)	Validation error displayed preventing an invalid time selection		
LBA_LB_26	Verify Notes/User Preference field accepts free text input	1. Enter text in the Notes field	Notes: "Please use fabric softener"	Entered text is accepted and saved with the booking		
LBA_LB_27	Verify Notes field enforces a maximum character limit	1. Enter text exceeding the maximum allowed characters	Notes: 1000+ character string	Field restricts input or shows a validation error at the character limit		
LBA_LB_28	Verify Notes field is optional	1. Leave Notes field blank 2. Proceed to next step	Notes: (blank)	Booking proceeds successfully without requiring notes		
LBA_LB_29	Verify Payment screen displays all available payment options	1. Navigate to Payment step 2. Observe available options	N/A	Cash, Credit Card, and Promo Code options are all displayed clearly		
LBA_LB_30	Verify user can select Cash as payment method	1. Select "Cash" as payment option 2. Proceed	Payment method: Cash	Cash is selected as the payment method and booking proceeds		
LBA_LB_31	Verify Credit Card payment with valid card details	1. Select "Credit Card" 2. Enter valid card number, expiry, and CVV 3. Submit payment	Card: 4111111111111111, Exp: 12/28, CVV: 123	Payment is processed successfully and booking is confirmed		
LBA_LB_32	Verify Credit Card payment with invalid card details	1. Select "Credit Card" 2. Enter an invalid/incomplete card number 3. Submit payment	Card: 1234 (invalid)	Validation error displayed: "Invalid card details"; payment is not processed		
LBA_LB_33	Verify Credit Card payment with an expired card	1. Enter card details with an expiry date in the past 2. Submit payment	Exp: 01/20 (expired)	Error message displayed: "Card has expired"; payment is declined		
LBA_LB_34	Verify Promo Code field applies a valid discount code	1. Enter a valid promo code	Promo code: LAUNDRY20	Discount is applied and updated total is reflected in the order summary		
LBA_LB_35	Verify Promo Code field rejects invalid or expired code	1. Enter an invalid/expired promo code 2. Tap Apply	Promo code: EXPIRED10	Error message displayed: "Invalid or expired promo code"; no discount applied		
LBA_LB_36	Verify Promo Code field is optional	1. Leave Promo Code field blank 2. Proceed with payment	Promo code: (blank)	Booking proceeds successfully at the standard price without a promo code		
LBA_LB_37	Verify order summary displays all selected booking details correctly	1. Complete item, schedule, and payment selection 2. Navigate to order summary	Item: Shirt x2, Schedule, Address, Payment method	Order summary accurately reflects selected items, quantity, schedule, address, and total cost		
LBA_LB_38	Verify Order Confirmation screen displays after successful booking	1. Complete payment and submit the booking	Valid completed booking flow	Order Confirmation screen is displayed with order ID and booking summary		
LBA_LB_39	Verify confirmation notification is sent after successful booking	1. Complete a booking successfully 2. Check SMS/push notification	Valid completed booking	User receives a confirmation SMS/notification with booking details		
LBA_LB_40	Verify booking screen handles network failure during submission	1. Disable network connectivity 2. Attempt to submit the booking request	No internet connection	Error message displayed: "No internet connection, please try again"; booking is not lost/duplicated		

ORDER MANAGEMENT

Test ID	Test Description	Test Procedure	Test Data	Expected Result		
LB_OM_01	Verify Order Management screen UI elements	1. Navigate to Order Management screen 2. Observe all elements	N/A	"View Booking/Orders", "Edit Order", and "Cancel Order" options are displayed correctly		
LB_OM_02	Verify "View Booking/Orders" displays list of all user orders	1. Tap "View Booking/Orders"	N/A	List of all past and current orders for the logged-in user is displayed		
LB_OM_03	Verify orders list displays Order ID, date, and status for each order	1. Open orders list 2. Observe each order entry	N/A	Each order entry clearly shows Order ID, booking date, and current status		
LB_OM_04	Verify orders are sorted with most recent order first	1. Open orders list 2. Observe order sequence	Multiple orders with different dates	Orders are displayed in descending order by booking date (most recent first)		
LB_OM_05	Verify user can filter orders by status	1. Apply filter for "Pending"/ Completed"/"Cancelled"	Filter: Completed	Only orders matching the selected status are displayed		
LB_OM_06	Verify user can search for an order by Order ID	1. Enter a valid Order ID in the search field	Order ID: ORD10023	Matching order is displayed in the search results		
LB_OM_07	Verify tapping an order opens the order detail screen	1. Tap on an order from the list	Selected order: ORD10023	Order detail screen opens displaying full order information		
LB_OM_08	Verify order detail screen displays item, schedule, payment, and address details	1. Open an order's detail screen 2. Review displayed information	Order with full details	Item list, quantity, collection/delivery schedule, payment method, and address are all displayed accurately		
LB_OM_09	Verify empty state is displayed when user has no orders	1. Log in with a new account with no bookings 2. Navigate to "View Booking/Orders"	No existing orders	An appropriate empty state message (e.g. "No orders yet") is displayed
